

# G·7 BeaSt

DualSource LED moving head

## Description

The G-7 BeaSt is a dual-purpose moving head specialized in aerial beams and high-power blind / strobe effects. Its glass parabolic reflector collimates multiple reflections into one coherent beam of light, while a rounded array of LEDs, inserted in the center of the reflector, delivers a high-power white strobe blinder. Due to its wide lens aperture, projection capabilities, and outstanding direct view effect, the G-7 BeaSt creates an innovative system specially interesting for long-throw applications, high-scale tours, and versatile installations.
