

## VR4 (Indoor) LED Display

VER has added the **VR4** to its extensive LED product solutions line. **VR4** is a 4mm high contrast and high resolution modular indoor LED display.

It provides high quality image reproduction and has been designed to meet show site demands with its easy installation and dismantling. Combined with the powerful Revolution Display M2 processor and 16-bits per color, **VR4** is the perfect LED tile for your next event or production. **VR4** is a VER exclusive.
